### Required Tools

- Tin Snips
- Superglue
- Hot Glue

### Required Personal Protective Equipment (PPE)

- Eye protection

# Spoon Stabilizer Support ASSEMBLY GUIDE

## Assembly Instructions

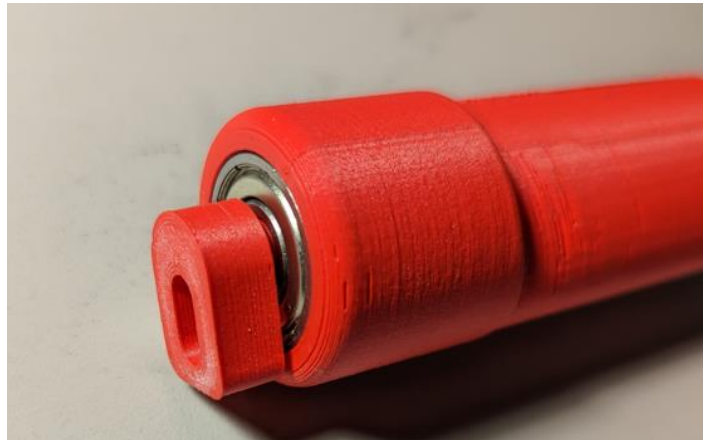

### Step 1

Use superglue to glue the bearing into the grip handle. Be careful to not get any into the bearing.

### Step 2

Use superglue to attach the insert into the bearing. Be careful not to get any into the bearing.

# Spoon Stabilizer Support ASSEMBLY GUIDE

## Step 3

Cut the utensil at the desired length and hot glue it into the slot on the spoon attachment.

## Step 4

Using the set screw, attach the spoon section to the handle section.

## ASSEMBLY GUIDE

### Step 5

If the user wants a weighted utensil, add the desired amount of weights to the hollow handle section. A tissue can optionally be used to prevent the weights from sliding around in the handle.

### Step 6

Use superglue to attach the grip insert to the end of the handle. Optionally, a soldering iron can be used to melt the two pieces together.
